CITY OF ST. AUGUSTINE**

Project Goal: Lincolnville Utility Rehabilitation Project – Phase 1 (Duero Street)

This project received cost share funding from the St. Johns River Water Management District for storm drainage improvements. Phase 1 will consist of storm and sewer work on a section of Duero Street (from the intersection of Twine Street up to Martin Luther King Ave). This project will replace aging utilities (sewer) and provide storm drainage improvements, with reconstruction of the road once the utility work is completed.

Project Improvements

G&H Underground Construction Inc. will be performing the following work:

- Installing new storm drainage infrastructure (pipe, inlets, drainage swale)
- Replacing existing gravity sewer.
- Reconstructing existing sidewalk impacted during construction.
- Reconstruction of the road once the utility work is completed.

Note: The contractor may need to close off this section of Duero Street during portions of the construction in order to complete the storm drainage work and sewer replacement. A MAINTENANCE OF TRAFFIC PLAN will be in place to direct traffic flow during the Road Closure. Access to existing driveways will be maintained to the best of the contractor’s ability during the work. Please follow road closure and detour signs and plan accordingly.

Project Approved

By the St. Johns River Water Management District on June 13, 2017. By the City Commission on September 25, 2017 for the St. Johns River Water Management District Cost Share Agreement.

Questions Concerning the Project

Project Manager (City of St. Augustine): Jessica Beach, Professional Engineer
Phone: 904-209-4227 or
Public Works Main Number: (904) 825-1040
E-mail Address: jbeach@citystaug.com

Project Contractor

G&H Underground Construction, Inc.
Office Number: (904) 829-8199

Project Schedule - REVISED

Start Date (Phase 1a - stormwater): September 10, 2018
Completion Date (Phase 1a): November 29, 2018
Start Date (Phase 1b - sewer): November 30, 2018
Completion Date (Phase 1b): January 28, 2019

Project Overview: This project was approved by the St. Johns River Water Management District’s Governing Board for Cost Share funding for the District’s General Cost Share Program for FY17-18. As such, up to 33% of the construction costs will be covered as part of this cost share program. During construction, a portion of Duero Street may be closed in order to complete the storm drainage improvements, replace the gravity sewer and reconstruct the road. The contractor will make every effort to expedite the project to minimize the road closure and we ask for your patience during this time. A maintenance of traffic plan will be in place, including signage and routing of traffic. Work hours will be Monday – Friday, 7:30 AM – 5:00 PM. The enclosed project map shows where the work will occur. Please plan accordingly and we appreciate your patience.

Stormwater Utility Friendly Reminder

Help reduce environmental contamination by calling the Public Works Department at 825-1040 and reporting cave-ins, unusual amounts of standing water, clogged drains; illegal disposing of lawn debris, paint, oil, gas or any other items into the drainage system.
