Agencies and Public: Cori Hermle, Doug White, Eve Cooke, Ian Pawn, Jason Kirk, Jen Lomberk, Kurt Foote, Michael Brock, Nikki Dix, Pete, Roxane Dow, Sloane Stephens, Tom F, 9042****40, Serigne Ndiaye

OPENING REMARKS

- Jason Harrah welcomed everyone to the webinar and thanked everyone for joining.
- The PDT will be monitoring the chat function and responding to questions there throughout the presentation.

PRESENTATION

- Jason Harrah presented several slides discussing the study background, study area, study scope, study schedule, and study budget.
- Marty Durkin presented slides describing the Initial Alternative Features being considered by the team to get to a tentatively selected plan (TSP)
 - Wall/Levee/Dune features
 - Wall and levee features to help protect from surge are being considered throughout the study area shoreline.
 - Surge barrier systems
 - Multiple configurations of various gates along with walls, levees, and dunes being considered at multiple inlets and throughout the study area.

- Nonstructural features
 - Primarily considering floodproofing for public/commercial structures and elevation for residential structures.
- Nature Based Solutions
 - Nature Based Solutions would consist of maintaining existing areas of saltmarsh into the future. They may be tied into wall/levee/dune features and are also being considered independently in locations where applicable.

November 21 st , 2024 @ 1:00pm	Monthly Webinar

QUESTIONS/COMMENTS

- Kurt Foote: Public comment period began this week for the Fort Matanzas seawall project.
- Eve Cooke: Great updates. A few quick questions: 1. Is USACE hiring a landscape architecture firm to do renderings for a the report or a different organization like the non-federal sponsor? Also, I want to confirm that renderings will be available for the public to view for the Draft EIS
 - Jason Harrah Response: Eve it's a mixture of all the above, used for public meetings, sponsor meetings as needed, the actual report, etc.
